Re: Scientific Chemical Processing  
Newark, New Jersey

Gentlemen:

This is in response to Mr. William J. Librizzi's letter of February 12, 1985 seeking the position of E. I. du Pont de Nemours & Company on a voluntary cleanup action at a hazardous waste site identified as the Scientific Chemical Processing at 411 Wilson Avenue, Newark, New Jersey.

Du Pont attended the February 26 EPA conference for potentially responsible parties. We will participate with other parties and assume an appropriate level of responsibility in a voluntary cleanup action at the reference site. We voluntarily in 1984 removed drums from the site at the request of the site owner.

Documents are being submitted separately as requested in Mr. Librizzi's letter. If you need further information, you may contact Mr. Carl B. Everett at (302) 774-2978 or me at (302) 774-7075.

Sincerely,

  
Paul R. Wilkinson
